Overview
In this workshop, you will gain in-depth knowledge of the tools and features that help monitor and evaluate student performance. First, you will learn how to set up, customize and manage the Grade Center to meet your particular evaluation goals. Then discover how to effectively leverage the Early Warning System to help monitor, and ultimately improve, student performance. You will also learn to use the Performance Dashboard, the Review Status feature, and available reports and statistics to better track student progress. And along the way, explore pedagogical and practical issues related to monitoring, evaluating and grading students in a hybrid or online course. Strategies for improving student retention and success will also be discussed.

The Teaching and Learning Online Advanced Series extends and enhances your use of the Blackboard Learning System™ while exploring relevant topics encountered by institutions. Each course presents best practices for teaching in Web-enhanced and distance education environments. The Advanced Series consists of:

- Evaluating Courses
- Taking Professional Development Online
- Active Learning Using Scholar
- Monitoring Student Performance
- Designing Engaging Content

Course Objectives
- Identify tools and strategies for monitoring student performance
- Set up the Grade Center to meet your assessment and evaluation goals
- Efficiently manage grades throughout the term
- Set up the Early Warning System to provide notification based on the specific needs of your course
- Use the Performance Dashboard to identify students who may need additional assistance
- View and interpret performance-related reports and statistics
- Use the Review Status feature to encourage student accountability and continued progress
- Identify strategies for improving student retention and success in the online environment

Who Should Attend
Instructors and support personnel using:
- Blackboard Learning System 7.x
- Blackboard Learning System 8.x

Duration and Costs
- Course is 14 days in length
  - Participants should expect to spend approximately 10-15 hours per week to complete the course activities
  - $390 USD per person
  - Printed or online materials do not need to be purchased for this course
  - A Blackboard practice course will be provided to each participant to use for course development

Location
- Fully online/asynchronous
Teaching and Learning Online Advanced Series
Monitoring Student Performance
Online Blackboard Training

Prerequisites

- Completion of the Teaching and Learning Online Certification Series or demonstration of an intermediate or above skill-set using Blackboard
- Computer that meets the minimum technical requirements for using the Blackboard Learning System
- Email and Internet access
- Basic computer navigation skills

Registration Information

Register for Monitoring Student Performance using our online Training Registration Center at http://trainingcenter.blackboard.com/trainingcenter/. Enrollment in each course is limited, so early registration is encouraged. Discounted pricing is offered for group purchases of 20 or more. Registrants will receive a welcome email from the facilitator on the morning of the course start date with all necessary course access information. If you have any questions, please contact Blackboard Training at training@blackboard.com. *Please note that registration for this course closes 2 days prior to the listed start date.
